Featured Project: The Time Hotel

When in The Time Hotel, you can feel the melodic energy of the thriving streets below-the heartbeat of New York City. Designed by Rockwell Group, the aesthetic reflects the character of the city- decidedly cutting edge and self-assured. To outfit their guest bathrooms and suites, they turned to JACLO. Working in collaboration, it was determined the unabashedly forward-looking Contempo Collection in a matte black finish was the perfect complement to complete their vision. This is just one example of how JACLO's Hospitality Division works in close collaboration with some of the most celebrated design teams to achieve remarkable results.

beauty in the details
