*“Hand Crafted Beauty”*

Wall Mount Pot Filler with Hand Wheel Option

Steam Valve Original - a range of beautifully handcrafted taps that combine modern technology with retro styling, that are manufactured from solid stainless steel in Frome, Somerset, in the United Kingdom for JACLO Industries.

Our unique modular design system allows for a diverse range of tap styles to be created. This flexibility enables the Steam Valve Original range to be used in conjunction with an array of sink styles, work surfaces and locations.

Single Lever Mixer with Large Swivel Spout

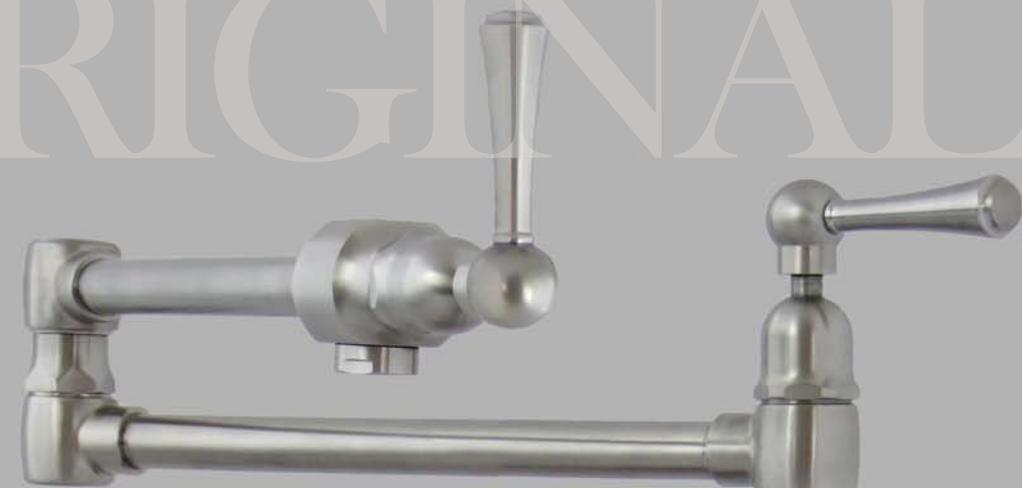

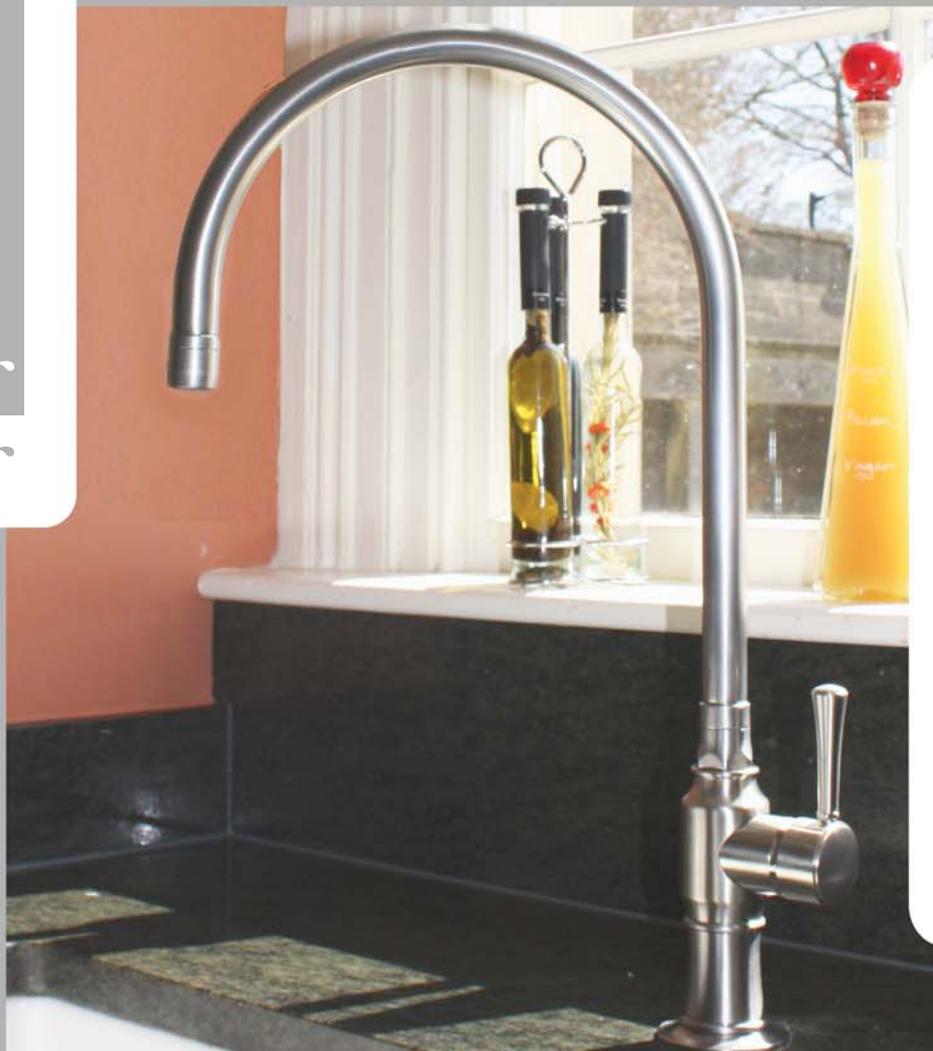

Single Lever Mixer with Small Swivel Spout

## Single Lever Mixer

The Single Lever Mixer features the latest ceramic valve technology which provides a smooth and easy control of both water temperature and volume.

## “Precision Engineered”

## Pot Fillers

Our Pot Fillers are well established in the North American market and have long been the must have product for high end kitchens. They provide a convenient means for filling pots and pans while on the stove. They are available in two different types, wall mount and deck mount. The deck mount pot filler is ideal for retro fitting into kitchens as minimum pipe work is required.

## “Patented Technology”

- removeable spray for quick and easy rinsing.

Our Patented removable spray system allows for quick and easy rinsing in one simple motion with either a spray or aerated flow. This together with our smooth joint technology and use of high grade materials gives the SteamValve Original range a true feel of fine quality, something that is reinforced with a lifetime guarantee. SteamValve Original taps are available in two stylish finishes, brushed and polished stainless steel. Being made from high grade Stainless Steel the entire range is compliant to the new low lead legislation for California and Vermont (AB1953)

Picture on left shows the spray head in aerated flow mode. Picture on right shows the spray head in spray mode. The different flows can be selected with a twist movement of the spray head. Both flows can be used with the spray head unclipped, as pictured far right, or with the unit seated in the spout

Mono Mixer  
with Swivel Spout

## Mono Mixer

The Mono Mixer has a balanced and well proportioned look. Adding the ceramic levers to any of the taps in the range makes them an excellent accompaniment to a ceramic sink or work surface.

“Timeless  
Elegance”

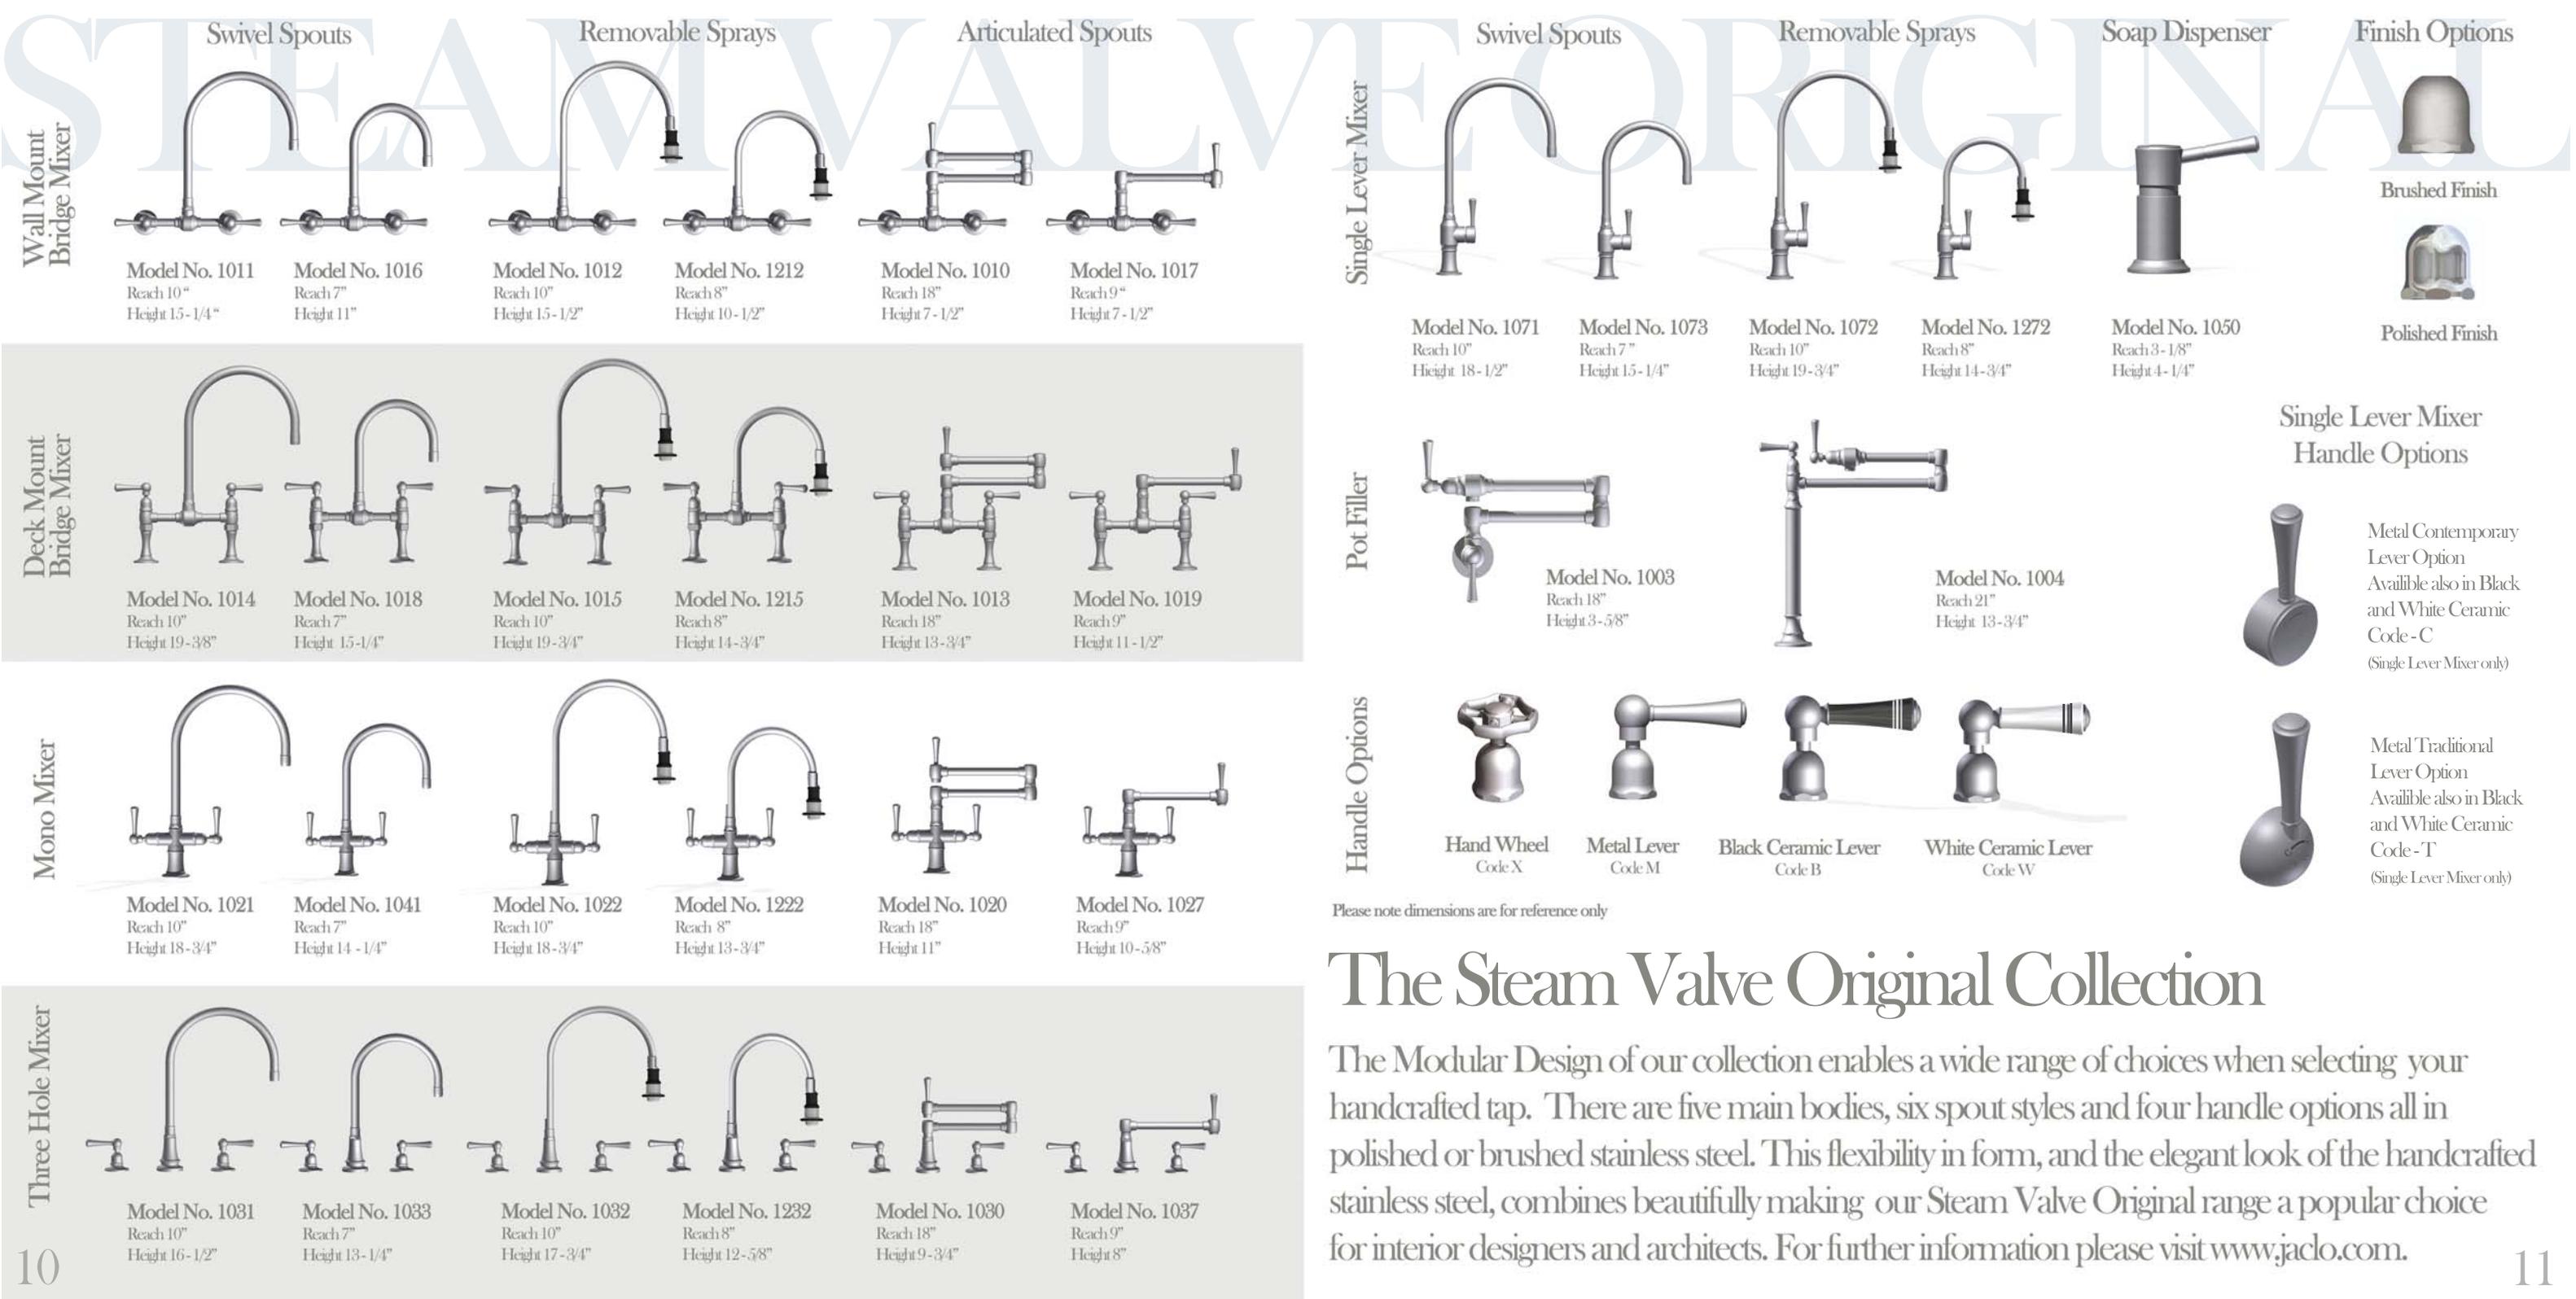

## Bridge Mixer

Deck Mount  
Bridge Mixer with  
Removable Spray

The bold form and prominent stance of the Bridge Mixer, whether wall or deck mounted, make it an attention grabbing focal point in any kitchen. The wall mount version is a good choice if extra space around the sink is required.
